

The **a5comb** package*

Mario Wolczko
mario@acm.org

21 May 1992

The **a5comb** package sets page layout to A5 size, with equal spaces to left and right, and twice the amount of centre space (for comb-bound documents) and top : side : bottom space = 2 : 2 : 4. See also **a5.sty**, **a4.sty**. The layout is based on ratios suggested by Dick Wakefield.

*This manual corresponds to **a5comb.sty** v. 4, dated 21 May 1992.
